Member password help

Use the steps below to request your CVSHRM website password.
If you see "No account found with this email address" or need help,
[email membership@cvshrm.org](mailto:email_membership@cvshrm.org).

Step 1: Open the CVSHRM website

Go to <https://cvshrm.org/>

Under Member Log In, click "Forgot password?"

Step 2: Request your password

Enter the email address associated with your CVSHRM membership, then click "Email Password". Use the same email for CVSHRM and SHRM.org so your membership can be matched. This does not mean the passwords are the same.

Step 3: Check your email and sign in

Check your inbox and spam/junk folders for the password email. Follow the instructions in that email, then return to Member Log In at cvshrm.org. Enter your email and the supplied password, and click "Sign In".
A message on the website alone does not confirm that the email arrived.

On a phone, scroll down the homepage to find Member Log In.

Member password help

What can I do once logged in?

When an event offers member pricing, sign in with your own member account before registering. Check the event page for current prices, eligibility, deadlines, and registration details.

Registering for an event

Open the event page and find its registration section. Click "Register Now!" when registration is available.

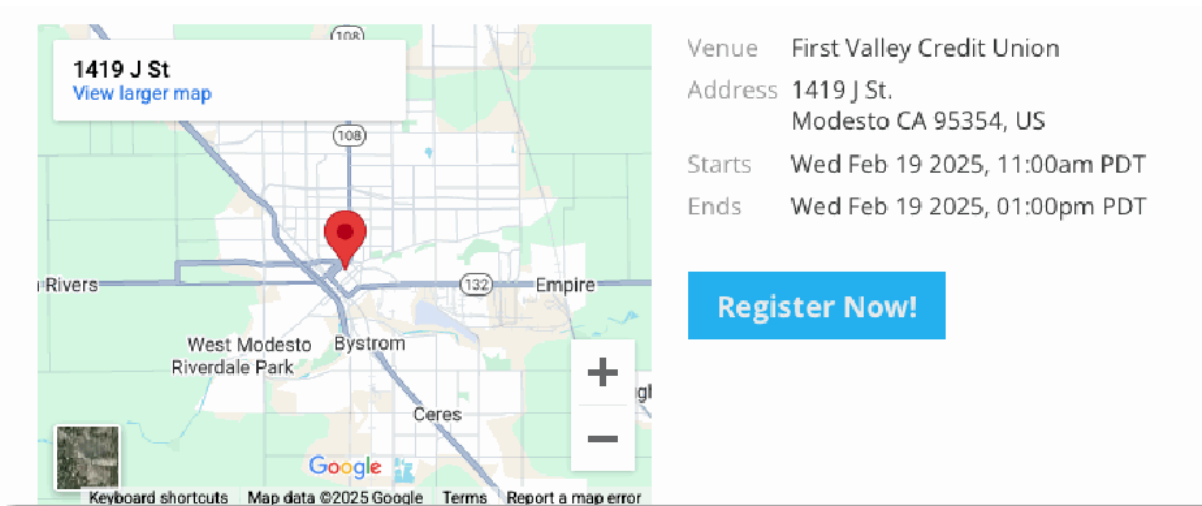

Illustration from the previous guide; event details and prices vary.

You can register yourself at the member price when you are eligible. Additional guests may be charged the guest price. To receive member pricing, each member should sign in and register using their own account.

Need help?

If your account cannot be found or the password email does not arrive, [contact membership@cvshrm.org](mailto:membership@cvshrm.org).
